

Executive summary

CrewSight delivers live crew visibility — GPS fleet tracking, hull event detection, zone alerts, and operations maps — for a **4-month racing season** covering **8 regattas** and **32 active tracking days**.

Option A — Data included (4-month season connectivity): \$59,685.00 incl GST

Option B — Data excluded (customer-provided SIM): \$47,265.00 incl GST

GPS handsets \$130.00/unit · IoT data included = \$10.00/SIM/mo × 4 months × 270 devices (\$10,800.00 ex GST)

IoT data rate: \$10.00/SIM/month (4-month season).

Season schedule

Regattas	Duration	Tracking days
5 regattas	3 days each	15
2 regattas	5 days each	10
1 regatta	7 days each	7
Total active tracking days		32

Daily profile: 8 hours — 1 hr @ 1 s · 4 hr @ 5 s · 3 hr @ 30 s reporting.

Season pricing options (ex GST)

Line item	Data included	Data excluded
GPS handsets (270 × \$130.00)	\$35,100.00	\$35,100.00
Cellular data — 4-month season (\$10.00/device/mo × 270)	\$10,800.00	—
CrewSight platform — maps, event alerts, ops monitor, provisioning & support (\$6,000.00 season)	\$6,000.00	\$6,000.00
Platform + data invoice (excl. handsets)	\$16,800.00	\$6,000.00
Season total	\$51,900.00	\$41,100.00
Season total (incl GST)	\$59,685.00	\$47,265.00

Data included: managed IoT SIMs active for the full 4-month season (\$40.00/device). **Data excluded:** customer supplies own cellular; platform and handsets only.

Optional extra — boat mounting

Boat mounting kit (270 × \$50.00) — optional	\$13,500.00 ex GST · \$15,525.00 incl GST
Season total with mounting — data included	\$75,210.00 incl GST
Season total with mounting — data excluded	\$62,790.00 incl GST

Commercial structure (CAPEX-focused, low OPEX)

Line item	Type	Amount (ex GST)	Incl GST
GPS handsets (270 × \$130.00)	CAPEX — device purchase	\$35,100.00	\$40,365.00
Boat mounting kit (optional, 270 × \$50.00)	CAPEX — optional add-on	\$13,500.00	\$15,525.00

Pricing at a glance

	Data included	Data excluded
Per device (season)	\$192.22	\$152.22
Per regatta day (whole fleet)	\$1,621.88	\$1,284.38
Data saving (excluded vs included)	—	\$10,800.00
Ongoing monthly fees after season	\$0	\$0

What's included

- CrewSight GPS app rollout on supplied handsets
- Live fleet maps, geofenced zone alerts, and hull & crew event detection
- Operations monitor — device list, ingest rates, session history
- Cloud hosting on Vercel + Postgres (included in season platform fee)
- Cellular data for full 4-month season (data-included option only)
- On-water connectivity validation and device ID setup
- Season support during regatta events

See *CrewSight-Technical-Overview.pdf* for full platform capabilities including vMix overlays and broadcast integration.

Handset field validation (14 Jun 2026)

Field test 14 Jun 2026: 11:30–11:45 NZST drive (~10 km) at ~1 Hz. M26 median GPS accuracy **3.3 m** (p90 5.2 m) vs S21 reference 5.2 m; fix continuity 1 s max gap on M26. Track agreement median 4.2 m.

Battery 14 Jun 2026: 96% @ 06:45 NZ → 64% after 10.3 h (~3.1 %/h at 1 Hz GPS + background recording; ~32 h from full charge; app data 36 MB). An 8-hour active day at 1 Hz uses ~25% — no mid-day charge required.

Customer requirements

- Shared APN must allow HTTPS to cloud endpoints (pre-deployment check for data-included option)

- Battery unrestricted · Location “Allow all the time” · Notifications enabled on each handset
- Handsets charged and tested before each regatta block

Important. CrewSight is a situational-awareness and fleet-visibility platform for rowing operations and broadcast. It is not certified rescue equipment and does not replace official race rules, patrol boats, qualified officials, or personal flotation requirements.
